DANIEL DEFENSE 300 BLK SUBSONIC AMMUNITION

Now there's a 300 AAC Blackout (7.62x35mm) subsonic round truly worthy of the Daniel Defense name. Our DD300BLK ammunition—for target shooting or home defense—is manufactured using only the highest-quality components available, including durable brass cases and precision 220-grain Lapua-Scenar-L OTM bullets, the first choice for serious target competition. Each and every round stamped with "DD" must undergo and pass a thorough inspection to ensure critical dimensions that affect accuracy are met before it leaves our factory. So you can rest assured you're getting the highest-quality ammunition from a name you can trust. Keep your rifle on target and running smoothly by feeding it the very best ammo. Go with Daniel Defense.
